

Amendments to the Drawings:

Please replace Figure 5 with the attached Replacement Sheet.

REMARKS

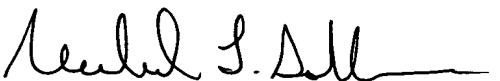

By the above amendments, paragraph [0033] of the specification, claims 10 and 33, and Figure 5 have been amended to correct a typographical error. No new matter has been added.

The structure of the compound called 9GO1 as set forth in the application inadvertently showed a single bond between two carbon constituents, rather than a double bond. Applicants submit that a chemist would have readily recognized this to be a typographical error, because without such an amendment the two carbon atoms now linked by the double bond would lack the requisite four bonds. Further, the amendments make compound 9GO1's structure consistent with that of structurally similar compounds 10E02, 10G04, 11B09, 11C09, 11D09, 11G02, and 12D02 of the present application.

In view of all of the foregoing, it is respectfully requested that the present application be promptly examined.

Respectfully submitted,

Date: November 16, 2006
